DM-220

Highlights at a glance:

- Space-Saving Design Concept
- Easy and Quick media loading
- USB/parallel or USB/serial interface as standard
- Supports ESC/POS emulation
- With integrated cutter

DASCOM's DM series offers reliability, precision and performance in a small footprint for POS applications. The user friendly design of the printer allows a space saving easy cover opening and an easy to load print mechanism with the capability to print multiple copies. The mechanism is designed with robust construction ensuring reliable operation, a must for all transaction environments.

The DM-220 offers a wide range of connectivity options allowing use with both an installed base of equipment and complete new installations. With an integrated cutting device this printer becomes more versatile in different applications.

The external power supplies make it easy to inventory your POS printer for operation in all parts of the world.

The DM-220 is appropriate for use in many vertical industries, including retail, hospitality and food service and healthcare.

Configurations:

- **DM-220** Cutter version

DASCOM®
